**Professional
business advice and
support for
organisations with a
local focus**

Select Business Services is a range of professional and business services which are focussed on the needs of local community organisations; from schools to public bodies to not-for-profits and even local businesses.

Are you an organisation that requires or has considered periodic or ongoing external help on business issues such as:

- Dealing with employee and staffing matters
- Tackling legal problems and disputes
- Financial management and governance
- Getting good value and service from core business requirements like energy supplies, creative & print solutions, etc?

If the answer is yes, then Select Business Services could also be the answer for you, whether you are a maintained or academy school, town or parish council, housing association, charity or voluntary group, membership organisation, or even a small business. Select Business Services presents you with an unrivalled choice of essential operational and business support, to solve day to day issues or realise strategic plans. Delivered by locally based experts for local organisations, Select Business Services will provide the quality of help you need and when you need it most.

Brought to you by Wokingham Borough Council, Select Business Services is an established and credible provider, already successfully delivering many professional, advisory and management solutions to assist community based and focused organisations.

What's different about Select Business Services?

Supported by a sound infrastructure and a wealth of knowledge and expertise, we are more than just a collection of different professional services. Each one can be used in isolation or can easily and effectively, be applied in conjunction with many others. This unique proposition enables organisations to benefit from the simplicity and added value of securing varied expertise, from a single source with a favourable buying power.

By providing you access to the advantages and security of working with a large organisation, we are committed to being more than just your supplier. We aim to build a strong and supportive working partnership and guide you towards the best possible outcomes.

We've listened to what you say...

Naturally, you would expect us to understand the needs and issues facing community based organisations; having to do more with less and the impact of the localism agenda for communities. We have also listened to what different organisations have had to say, about what is important to them.

In this time of austerity, when budgets are tight and the right skills can be in short supply, we've compiled a range of complementary services which are proven and readily accessible. Equally important, they are designed to help you solve and manage today's problems and achieve efficiencies.
